EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claim 30. A method for physical detection and tracking of devices on a computer network, the method comprising:

identifying a building comprising a first room and a plurality of rooms distinct from the first room;

identifying a computer network housed within the building and comprising

a plurality of outlets, each outlet thereof containing substantially exclusively, as its electronically active elements, electrical conductors carrying data signals unprocessed therethrough, at least one outlet of the plurality of outlets being housed within each room of the plurality of rooms,

a network infrastructure device selected from the group consisting of a switch, router, and hub, the network infrastructure device housed within the first room and comprising a plurality of ports, each port thereof operably connected to an outlet of the plurality outlets corresponding exclusively thereto,

a plurality of devices housed within the plurality of rooms, each device of the plurality of devices connecting to the network infrastructure device via an outlet of the plurality of outlets;

storing and automatically updating, by the network infrastructure device, a connection table mapping each port of the plurality of ports to a corresponding device of the plurality of devices connected thereto;

installing and running, after the storing, reporting software on a first device of the plurality of devices;

installing and running, after the storing, correlating software on a device of the plurality of devices, the correlating software comprising a binding table mapping each port of the plurality of ports of the network infrastructure device to a corresponding room of the plurality of rooms;

directing, by the reporting software, the first device to query the network infrastructure device and obtain from the connection table a port identification corresponding to the first device; and

determining, by the correlating software, the location of the first device by locating the port identification within the binding table and retrieving from the ~~bidding~~ binding table information designating a room of the plurality of rooms mapped thereto.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: Applicant has defined the claimed invention clearly and distinctly. In particular, the amendments made to the claims define applicants claimed invention so that the claimed invention, as a whole, distinguishes over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to HASSAN PHILLIPS whose telephone number is (571)272-3940. The examiner can normally be reached on Mon-Fri (8am-5pm).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, John Follansbee can be reached on 571-272-3964. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
